TLKR T92H₂O KEEPING YOU CONNECTED ON YOUR WILDEST ADVENTURES

FLOATING WATERPROOF DESIGN¹, RUGGED CONSTRUCTION AND UP TO 10KM RANGE², THE TLKR T92H₂O KEEPS YOU CONNECTED WITH FAMILY AND FRIENDS.

The integrated torch has bright white and red modes and will automatically activate on contact with water. Press the emergency alert button to activate a hands-free call and sound a loud warning tone on your radio to signal to others in your group that you need help³.

Supplied with rechargeable batteries, USB car charger, belt clips with built-in whistle and a hard carry case, the **T92H₂O** has everything you need to stay connected during your wildest adventures.

1. This radio meets IP67 standards. It will withstand submersion of up to 1m for 30 minutes. Radio floats with included NiMH battery. It may not float with some AA batteries. Use of headset should be in dry environments only.
2. The communication range quoted is calculated based on an unobstructed line of sight test under optimum conditions. Actual range will vary depending on terrain and conditions, and is often less than the maximum possible. Your actual range will be limited by several factors including, but not limited to: terrain, weather conditions, electromagnetic interference and obstructions.
3. The Emergency Alert feature should only be used in the event of an actual emergency. Motorola Solutions is not responsible if there is no response to the emergency alert from the receiving group.

PRODUCT OVERVIEW

ENHANCED FEATURES

WE DESIGNED THE TLKR T92H₂O WITH ADDED FEATURES TO BENEFIT ALL-TERRAIN USERS IN ALL WEATHERS.

MAXIMUM RUGGEDNESS, OPTIMAL USABILITY,
WHEREVER YOUR NEXT ADVENTURE MAY TAKE YOU.

While splash-proof may be the standard for other consumer radio manufacturers, it is just the starting point for the **TLKR T92H₂O**.

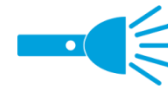

These radios are IP67 – waterproof and submersible, they float face upwards for easy retrieval when dropped in water, have belt clips that double up as whistles, and have an enhanced flashlight feature that activates upon contact with water.....

IP67 Waterproof¹
Submersible in water for up to 1m for 30minutes

Easy-to-Retrieve
Floats face up and features water activated torch light

Integrated LED Torch
With red and bright white modes

Water-Activated Torch
Automatically turns on on contact with water

Whistle Belt Clips
Help to attract attention from others when blown

iVOX/VOX
Hands free operation with or without accessories

1. This radio meets IP67 standards. It will withstand submersion of up to 1m for 30 minutes. Radio floats with included NiMH battery. It may not float with some AA batteries. Use of headset should be in dry environments only.

PMR446 UNLICENSED FREQUENCIES

ALL TLKR RADIOS UTILISE PMR446 UNLICENSED FREQUENCIES FOR EASY, COST EFFECTIVE OPERATIONS.

No subscription or call charges and 8 channels with user selectable privacy codes (121 sub codes per channel) help ensure a clear signal, with a range² of up to 10km.

Compatible
Receives communication
from all PMR446
two-way radios

TLKR T92H₂O radios are also compatible with all other TLKR radios and with any other radio operating on the same PMR446 frequencies.

10km²

2. The communication range quoted is calculated based on an unobstructed line of sight test under optimum conditions. Actual range will vary depending on terrain and conditions, and is often less than the maximum possible. Your actual range will be limited by several factors including, but not limited to: terrain, weather conditions, electromagnetic interference and obstructions.

IP67 WATERPROOF

WHILE SPLASH-PROOF MAY BE THE STANDARD FOR OTHER CONSUMER RADIO MANUFACTURERS, IT IS JUST THE STARTING POINT FOR THE TLKR T92H₂O

IP67 Waterproof¹
Submersible in water for
up to 1m for 30minutes

Easy-to-Retrieve
Floats face up and features
water activated torch light

These radios are IP67 waterproof. That means they can withstand submersion in water in depths of up to 1 metre for 30 minutes.

But that's not all. The **T92H₂O** will also float¹ to the surface - face upwards - for easy retrieval when dropped in water.

1. This radio meets IP67 standards. It will withstand submersion of up to 1m for 30 minutes. Radio floats with included NiMH battery. It may not float with some AA batteries. Use of headset should be in dry environments only.

ENHANCED FLASHLIGHT

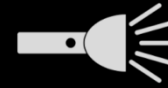

THE TLKR T92H₂O INTEGRATED FLASHLIGHT MEANS THAT YOU WILL NEVER GET CAUGHT SHORT IN THE DARK!

On first press, the red LED is activated, when used in the dark you can light your way to the campsite facilities, or follow the trail without disturbing the wilderness around you!

On second press, the white LED is activated, for a bright clear torch light.

In addition, the flashlight has water sensors – so when dropped in water the white LED will automatically switch on, making your **T92H₂O** easy to spot and retrieve!

Integrated LED Torch
With red and bright white modes

Water-Activated Torch
Automatically turns on on contact with water

EMERGENCY FEATURES

WE NOT ONLY WANT TO KEEP YOU CONNECTED ON YOUR WILDEST ADVENTURES, WE WANT TO KEEP YOU SAFE! WE DESIGNED THE TLKR T92H₂0 WITH ADDED EMERGENCY FEATURES SHOULD YOU FIND YOURSELF CAUGHT SHORT....

The **TLKR T92H₂0** belt clip doubles up as a whistle – if you need to draw attention to yourself simply disconnect from the radio and blow!

There is also an emergency button on the top of the **T92H₂0** - press and hold this for 3 seconds and a loud alarm will sound, and also activate the hands free (iVOX) feature for you to transmit your call to your group requesting help³.

Whistle Belt Clips

Help to attract attention from others when blown

iVOX/VOX

Hands free operation with or without accessories

3. The Emergency Alert feature should only be used in the event of an actual emergency. Motorola Solutions is not responsible if there is no response to the emergency alert from the receiving group.

LONG BATTERY LIFE

UP TO 16 HOURS BATTERY LIFE⁴ ON A SINGLE CHARGE, THE TLKR T92H₂O ENSURES YOU CAN STAY IN TOUCH ON EVEN THE LONGEST DAY OF ADVENTURES.

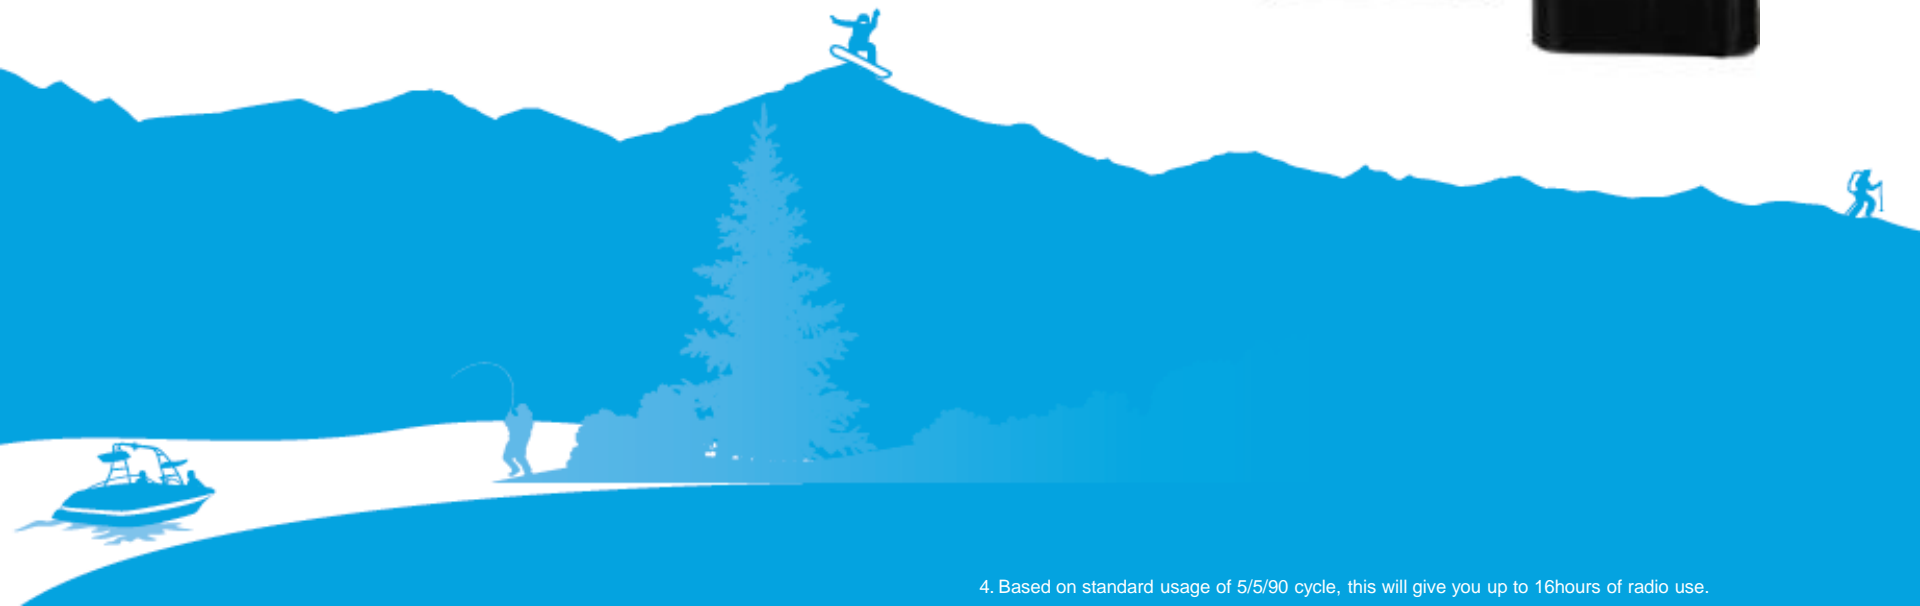

The **TLKR T92H₂O** is supplied as standard with 2 x 800mAh NiMH rechargeable battery packs.

Need more hours? No problem! You can also use standard AA batteries or the optional high capacity 1300mAh battery pack. Note that these options could reduce the radios' capacity to float when dropped in water.

Dual Power

Use rechargeable NiMH batteries included, or 3 AA batteries

4. Based on standard usage of 5/5/90 cycle, this will give you up to 16hours of radio use.

MICRO USB CHARGING

WE KNOW THAT YOU WANT TO USE YOUR TLKR T92H₂0 ON THE GO, ANYWHERE - SO WE HAVE INCLUDED MICRO USB CHARGING.

The **TLKR T92H₂0** is supplied as standard with a dual USB car charger with detachable USB micro cables so you can charge your radios on the go.

Alternatively, use the cables supplied to connect to a laptop, PC or USB power supply.

Micro USB
Charging

FULL FEATURES

Highlights:

- **PMR446 – license free**
- **Up to 10km range²**
- **LED torch with bright white and red modes plus water-contact activation**
